PROFILE

Detail-oriented Data Analyst with hands-on experience in data cleaning, transformation, and visualization using Excel and Power BI. Passionate about turning raw data into actionable insights. Currently pursuing a BBA in HRM at Islamic University, Bangladesh, and actively learning Python, SQL, and AI automation to strengthen analytical capabilities.

CERTIFICATIONS

Data Analyst Job-Ready Bootcamp | Data Solution 360 2025 – Present
Data Solution 360 | *In Progress* | Excel, Power BI, PostgreSQL, Python, Statistics, AI for Analytics
49-class live bootcamp covering Excel, Power BI, DAX, PostgreSQL, Python (Pandas, NumPy, Matplotlib, Seaborn), Statistics, and AI-assisted analytics. Shareable certificate upon completion.

EDUCATION

Bachelor of Business Administration (BBA) 2023 – 2026
Department of Human Resource Management
Islamic University, Bangladesh

SKILLS

Technical Skills: Data Cleaning, Data Modeling, Data Visualization, Dashboard Development, Exploratory Data Analysis (EDA)
Tools & Software: Microsoft Excel (Pivot Tables, Charts, Slicers), Power Query, Power Pivot, Power BI, DAX
Soft Skills: Analytical Thinking, Problem Solving, Attention to Detail, Communication

PROJECTS

HR Attrition Analysis *Excel Project*

- Cleaned and organized raw HR data into an analysis-ready dataset using Excel data cleaning techniques.
- Analyzed key factors driving employee attrition, including department, age, salary, and tenure.
- Developed an interactive dashboard with charts and KPIs to track attrition trends effectively.
- Generated actionable insights to support data-driven HR decision-making.

Pizza Sales Performance Dashboard *Power BI Project*

- Cleaned and transformed raw pizza sales data using Power Query to ensure accuracy and consistency.
- Built a multi-page interactive dashboard tracking Revenue (\$17.86K), Orders (21K), and Pizzas Sold (50K) with KPI cards.
- Analyzed daily and monthly order trends, identifying Friday as peak day and July as the top-performing month.
- Compared best and worst performing pizzas by revenue, quantity sold, and order count across all categories.

Sales Data Analysis Dashboard *Power BI Project*

- Cleaned and transformed a raw sales dataset into analysis-ready format using Power Query.
- Built interactive dashboards with KPIs (Revenue, Profit, Orders, Returns); applied DAX for monthly comparisons.
- Visualized sales trends, product subcategory performance, and customer demographics for business insights.

ACTIVITIES & VOLUNTEERING

Come for Road Child – Member

- Associated with a social welfare organization supporting underprivileged children; contributed to community engagement initiatives.

Career Club – Member

- Participated in career development sessions and networking activities.

HRM Club – Member

- Participated in HR seminars and workshops on recruitment, employee engagement, and workplace practices.

Independent Data Analysis Projects

- Completed multiple data analysis projects using Excel and Power BI; built interactive dashboards for real-world datasets.
